FAST FACTS FOR
NEW HAMPSHIRE TEACHERS

What is Tutor.com?

Tutor.com provides on-demand academic support in English and Spanish to students in grades 4–12 in all NH public, non-public, charter, and home education programs, along with adult learners—**at no cost to students**. Students work anonymously in real time with vetted experts in academic, career, and study skills subjects.

Setting up learning success

Invite Tutor.com to visit your school virtually or in person to provide:

Staff Training
Empower teachers, administration, counselors and student support specialists. See the platform in action and gain strategies to redirect student questions.

Interactive Student Demonstrations
A 30-minute, hands-on workshop to help students get the most of their Tutor.com access and build confidence.

Parent Workshops
Introduce parents and guardians to valuable benefits of Tutor.com, support at-home learning and foster college readiness.

Teacher Benefits

Extends the Learning Day
Tutor.com is available even when teachers cannot be. Students can connect with a tutor 24/7—anytime, anywhere, from any internet-connected device.

Prepares Students for Tomorrow
Tutor.com is here to give teachers back additional time in the classroom and advance their lessons, with the added support of our expert tutors.

- Refer students who may need additional support to Tutor.com.
- Include Tutor.com as part of an assignment, or award extra credit for student use.
- Remind students that Tutor.com is available after school hours.

Works With Your Curriculum
Our tutors use examples the students provide from their own class notes and/or textbooks to ensure that our methods align with your expectations. Students can use Tutor.com in the classroom, in alignment with your assignments.

- Use the drop-off writing review to receive feedback on students' first drafts.
- Get live, individualized support for students to brainstorm their writing ideas.
- Work with a tutor to help students review test or quiz corrections.

Student Benefits

Access a Safe and Anonymized Learning Environment

Our proprietary online classroom provides students with a secure online learning environment. Tutors go through an extensive on-boarding and background check process. Additionally, students can communicate with tutors via text- or audio-chat—whichever is most comfortable.

Wide Variety of Subjects

Get help with math, science, English, writing, social studies, world languages, computer lit, AP® courses, and more.

Offers Personalized, On-Demand Student Support for Every Level

Every Tutor.com session is personalized to meet the needs of your students, from remedial to advanced levels. It focuses on conceptual learning and critical thinking—not quick answers.

Comprehensive Support

With Tutor.com, students receive more than just homework help. They can review a tough concept, get expert feedback on a writing assignment, and explore SAT® and ACT® test-prep resources from The Princeton Review®.

SAT Test Prep

Students have access to online drills, lessons, practice questions, and full-length SAT practice tests, complete with DESMOS® calculator, that will provide exposure to the online testing environment and reduce test-taking anxiety.

Next Steps

Ready to roll out Tutor.com at your school? Reach out to us to reserve dates for staff, student and parent trainings. Here are a few tips to help you plan!

- ✅ **Plan in advance!** We schedule a minimum of two weeks in advance for workshops.

- ✅ **Create a student workshop schedule.** Workshops work best in small groups up to 30 students.

- ✅ **Determine a location.** Generally it's easiest for teachers if we move from classroom to classroom. However, some schools prefer to use a centralized location such as a media center. Students will need workspace for their device—we recommend a desk or table.
